

Client Feedback & System Requirements

Document Type: Technical Review & Action Items

Status: Pending Implementation

1. USER PROFILE & ACCOUNT SETUP

- **User Progress Tracking:** Monitor and display user progress over a 52-week period.
- **User Title & Membership:** Incorporate user titles tied to membership levels.
- **Profile Creation Logic:** Profile creation is repeated/mandatory. Room feature must operate without group profile functionality.
- **Complete Profile Page:** Ensure a streamlined and dedicated page for users to complete their profiles.

2. CHAT, SAFETY & DISCLAIMERS

- **Emoticons & Chat Reactions:** Enable emoticons and expressional reactions within the chat module.
- **Safety Disclaimer Prompt:** Display a mandatory safety warning before a user sends a message, warning against sharing personal addresses, phone numbers, or meeting in public places.
- **App Safety Notifications:** Implement safety feature alerts and notifications (e.g., slow scroll prompts, safety tips).
- **Age Disclaimer:** Add a clear age validation/disclaimer prompt upon user entry.
- **Admin Chat Controls:** Provide full administrative control over chat rooms, messaging, and associated features.

3. ADMIN DASHBOARD & USER MANAGEMENT

- **User Categorization in Admin:** Fix administrative issue where regular customers are currently displaying under the "Admin User" list.
- **Profile Approval Workflow:** Allow admins to view the complete user profile in full before selecting to *Approve* or *Reject*.
- **Dedicated Admin Login:** Separate the admin login portal completely from standard user authentication pages.
- **Feature Control:** Empower admins with toggle control over global application features and user permissions.

4. UI/UX & SITE NAVIGATION

- **Branding & Logo Updates:** Refresh site logo placements across headers and footers.
- **Navigation Menu Consistency:** Resolve missing or inconsistent navigation menus across pages. Ensure SSL security is active across all pages.
- **Landing Content Pages:** Include dedicated sections/pages for *"Meet the Mind Behind"* and *"Meet Tatiana"*.
- **"Learn More" Link Fixes:** Ensure hidden or background pages linked under "Learn More" elements are accessible and correctly routed.
- **Join Page Fix:** Repair broken functional issues on the main "Join Us" page.

5. INTEGRATIONS & BUSINESS LOGIC

- **Location & Map API:** Integrate Map API for accurate location tracking (including distance display in miles instead of kilometers, and local user count near current location).
- **Packages & Chat Activation:** Link subscription packages directly to chat feature activation and messaging access.
- **Automated Email Notifications:** Set up automated system emails routed directly to Tatiana.
- **Legal Pages:** Ensure complete and compliant Privacy Policy and Terms & Conditions pages are published.
